

VCQ Celebration 2018 Block Lotto

Friendship Star Block

This is a traditional quilt block sewn in a different way. Hopefully this will make the blocks the same size! You have your choice of a 9 1/2" block or a 12 1/2" block.

Fabric

The background fabric is already precut and available in both sizes. The packet will contain 5 squares and 4 half square triangles (HST).

You will need to add from **Solid fabric** the triangles for the half square triangle squares. You can use the background fabric as a template, cut squares or purchase a precut set of solids while they last.

Directions

Lay the background HST on top of the solid fabric, aligning the corners.

Draw a line from point to point. This is the **fold line**. Stitch to the right of the drawn line. This should give you a 3 1/2" or 4 1/2" square depending on which size block you are making.

Press to the solid fabric.

Assemble according to the picture below. You can have it twirl either way; but, only one way in each block.
